

(name of pupil)

has successfully completed the Internet Proficiency Scheme.

I am a SMARTthinker and know how to use the Internet and other technologies safely. I know that I must always use the Internet and other technologies safely and if I am unsure or worried I will talk to my teacher, parent or carer.

This school participates in
the DfES/Becta Internet
Proficiency Scheme.

The Internet Proficiency Scheme aims to develop safe and discriminating behaviours for Key Stage 2 pupils who use the Internet and other technologies. These behaviours should be regularly reviewed and updated and are supported by our school's 'Acceptable Use Policy'.

S

= Secret

This is about personal information and whether it is safe to give it out. For example, it might apply to an on-line registration form or someone requesting contact details so they can send you a prize.

WHO wants the information?
WHY are they asking for it?
WHAT will they do with it?

STOP and **THINK**

M

= Meeting

This is about someone you have never met before contacting you on line or through a messaging service to invite you to a meeting.

WHY should you **never** arrange to meet anyone you have only met on line?
WHAT might happen?
WHO should you tell?

STOP and **THINK**

A

= Attachments

This is about e-mail and attachments and what you need to think about before opening them.

WHO sent it?
WILL it be safe to open it?
WHAT can I do to protect myself and the computer?

STOP and **THINK**

R

= Reliable

Anyone can put anything on the internet and anyone can use the communication technologies (such as, chat, SMS, e-mail, IM) to contact others.

WHETHER I can rely on information on web sites to be true
WHETHER I can rely on someone I can't see telling me the truth
WHAT can I do to check?

STOP and **THINK**

T

= Tell

No matter how careful we are, sometimes we might come across things that upset us.

WHAT can I do when web sites and messages make me feel uncomfortable?
WHO can I tell?
WHAT can I do to stop it happening again?

STOP and **THINK**
